Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Molly and her family have moved around for years. Every time they think they've found a home, one of the Quirks slips up and sends them packing. The Quirk family, you see, is a bit, well, quirky. Each family member has a magical power that makes them unique, and highly unusual. Mum can control minds; Grandpa twists time; Molly's twin sister Penelope has an all-too-real imagination; and Finn is the naughty little brother - who also happens to be invisible. Then there's Molly, the most unusual Quirk of all. Molly is completely, and utterly, normal. Molly's greatest desire is to fit in, and she's found the perfect spot: Normal, Michigan. With its chocolate-box houses, welcoming committees and famous town competitions, it seems like just the place for an ordinary new life. But the Quirks aren't known for fitting in - especially in a place like Normal . . .
