Alpha Kappa Alpha Sorority, Incorporated, Chi Omega Chapter of Rocky Mount, North Carolina, is proud to dedicate this history book to Anna Easter Brown, a founding member of the sorority and charter member of Chi Omega. The chapter has researched extensively, carefully compiled, and printed this history book with love, dedication and honor. Included in this rich history are profiles for former National Presidents, former Regional Directors, and chapter members who played key roles when Chi Omega was host for Regional Conferences, Leadership Conferences, and Cluster Meetings. Chi Omega has presented a snapshot of its many national and local programs.

When the two strangers turn up at Rowena Cooper's isolated Colorado farmhouse, she knows instantly that it's the end of everything. For the two haunted and driven men, on the other hand, it's just another stop on a long and bloody journey. And they still have many miles to go, and victims to sacrifice, before their work is done. For San Francisco homicide detective Valerie Hart, their trail of victims—women abducted, tortured and left with a seemingly random series of objects inside them—has brought her from obsession to the edge of physical and psychological destruction. And she's losing hope of making a breakthrough before that happens. But the murders at the Cooper farmhouse didn't quite go according to plan. There was a survivor, Rowena's ten-year-old daughter Nell, who now holds the key to the killings. Injured, half-frozen, terrified, Nell has only one place to go. And that place could be even more dangerous than what she's running from. In this extraordinary, pulse-pounding debut, Saul Black takes us deep into the mind of a psychopath, and into the troubled heart of the woman determined to stop him.

This updated edition of the classic covers new tools and trends, including current browsers, access methods, hardware, and software. Includes tips to secure project funding and provides strategic guidance for all types of libraries.

This landmark volume tackles the long overdue critical examination and evaluation of the state of the art of field instruction in social work education. For the first time, the findings of empirical research are consolidated to review, test, and question prevailing assumptions in social work field instruction. The vigorous assessment of the state of the art in field instruction, the field placement process, field instructors, and students enables the social work profession to reflect upon its accomplishments and review its practices. Provocative, informative, and controversial, *Empirical Studies in Field Instruction* also urges the profession to make changes and to insist on continued high caliber empirical research efforts in field instruction. It is an excellent resource for directors of field instruction, faculty field liaisons, field instructors, social work students, classroom instructors, researchers, and doctoral students.

This definitive resource covers every aspect of teaching in higher education. Particular emphasis is placed on the two main concerns facing professors in North America and the UK today; the growing emphasis on the quality of college teaching and, more specifically, the increasingly demanding nature of the profession, whereby lecturers are forced to teach more students on a greater number of courses. Pons' practical advice is supported throughout by research evidence.
