In the far off future, the worlds natural resources have run dry, and we have been forced to rely on the moon for critical mining operations. Oreheavy asteroids from the asteroid belt are brought to the moon, where a number of companies struggle to stay on top, including the United American Republic, European Union, and Africas Transvaal. Each company has its own armed guards who protect mining operations on site. Jim Hawkins has just enlisted with the UAR, and now its time for him to head to space with a team of his fellow soldiers. Hawkins is green; hes never seen actual combat. He may soon learn more than he ever imagined. Someone is out to sabotage UARs operations. As a Space Marine, Hawkins knows its his job to stop them, but can he discover the culprit before its too late? One of their trusted allies could be behind the attack, and Hawkins will need to grow up fast to sort this mess out.

New Girl. New School. Old Evil. From the author of the Chicagoland Vampires novels. A new series about a boarding school filled with something worse than homework. Lily's parents have sent her to a fancy boarding school in Chicago filled with the ultra-rich. If that wasn't bad enough, she's hearing and seeing bizarre things on St. Sophie's creepy campus. Her roommate, Scout, keeps her sane, but keeps disappearing at night. When one day Lily finds Scout running from real-life monsters, she learns the hard way that Scout is involved in a splinter group of rebel teens. They protect Chicago from demons, vamps, and dark magic users. It's too bad Lily doesn't have powers of her own to help. At least, none that she's discovered yet...

An essential reference for anyone interested in gaining a deeper understanding and appreciation of classical mythology, this unique guide offers original source material on the social and historical background, interpretation, and commentary on major literary books on Greek myth—such as Homer, Hesiod, the tragedians, the historians, Ovid, Vergil, and in Greek art. Written in a clear and lucid manner, the book offers fresh and original interpretations based on the latest scholarship, and comes organized into three distinct parts: I: Definitions and Interpretations (devoted to theoretical issues); II: Background (to fill in information essential to understanding myth); and III: Themes (chapters directed toward specific topics in the study of myth). For general readers of English literature and/or classical mythology.

"With a convenient outline format, this reference is ideal for use at the point of care. It covers common medical conditions of the hand, discussing both surgical and nonsurgical therapy options. Rehabilitation for both types of treatment is reviewed, and potential postoperative complications are addressed. Reflecting the collaborative nature of current practice, each chapter is written by a hand therapist with surgical content provided by a hand surgeon."--BOOK JACKET.

Cherry Memories alone can ruin you. Fear has a paralyzing effect, and love isn't always enough to keep you safe. Ace was the gateway to a freedom I hadn't known since I was fifteen. He offered his protection from the demons that haunted me, both living and dead. Although I knew I wasn't enough to keep him, this didn't deter my hope that one day he'd love me for who I was, not the broken girl he tried so desperately to save. In the end, the ghosts of my past found me. Their malevolence knew no bounds, and I was forced to succumb to their will of darkness. Each threat named against those I loved made any escape impossible; choosing my life for theirs became my desolate absolution. Inevitably, my own weakness and self-doubt became my undoing. Ace Emotional ties are sometimes severed. Friendships don't always endure their hardships, and love offered isn't always returned. I was in love once. For me, leaving her back in Ohio was the hardest thing I've ever had to do. For her, moving on with her life that included her son and the man she loved was no less than she deserved - unconditional happiness. My reasons to bring Cherry home to California were obvious. I needed help with my family, and she needed help staying clean and convincing her parents she was ready to give her son the life he deserved. It was a perfect plan. However, the best-laid plans often get lost amidst their best intentions. Cherry fell in love with me, and in return, my love for her acted as the catalyst to her destruction.
