MORAL ISSUES IN BUSINESS, 13E examines the moral dilemmas that are common to today's business climate and gives readers the analytical tools to resolve those issues. Using a combination of true stories, interesting reading selections, and a conversational writing style, this edition prepares readers for the moral quandaries awaiting them in the professional world. Featured topics include: the nature of morality, individual integrity and responsibility, economic justice, pitfalls of capitalism, and corporations' responsibilities to consumers and the environment. Plus, this edition also discusses situation-specific concepts such as downsizing, whistle blowing, sexual harassment, job discrimination, animal abuse, and drug testing. BUSINESS ETHICS, 9th Edition is a comprehensive and practical guide that will help you with real life ethical issues that rise in the business world. It will assist you through the process of developing the critical thinking and analytical skills needed to successfully navigate the unique set of problems that emerge when ethics and commerce collide. This book focuses on key ethical concepts and emphasizes the real world importance of critical topics such as the nature of morality, major theories of ethics and economic justice, and competing views of capitalism and corporate responsibility. It is thorough, flexible, and designed to bolster student involvement with the material for better comprehension and understanding. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

BUSINESS ETHICS: A TEXTBOOK WITH CASES, 8E, International Edition guides students through the process of thinking deeply about important moral issues that frequently arise in business situations, and also helps them develop the reasoning and analytical skills to resolve those issues. Combining insightful and accessible textbook chapters by the author with cases that highlight the real-world importance of key ethical concepts, this book provides a comprehensive, flexible, and pedagogically proven course of study that explores the intersections of commerce and ethics. Shaw's uniquely thorough and practical guide helps students understand such critical topics as the nature of morality, individual integrity and responsibility, economic justice, concepts of capitalism, and the role of corporations in our society (including their responsibilities to consumers and to the environment), and real-life moral issues that arise in the workplace.

Suitable for students on business ethics, business and society, or applied ethics courses, this work brings together eleven essays by prominent authors. It features work in the field and addresses important and provocative issues. The essays represent diverse ethical and philosophical orientations and have been edited and abridged to make them more accessible to students.

This book offers a detailed utilitarian analysis of the ethical issues involved in war. Utilitarianism and the Ethics of War addresses the two basic ethical questions posed by war: when, if ever, are we morally justified in waging war, and if recourse to arms is warranted, how are we permitted to fight the wars we wage? In addition, it deals with the challenge that realism and relativism raise for the ethical discussion of war, and with the duties of military personnel and the moral challenges they can face. In tackling these matters, the book covers a wide range of topics—from pacifism to armed humanitarian intervention, from the right of national defense to pre-emptive or preventive war, from civilian immunity to the tenets of just war theory and the moral underpinnings of the rules of war. But, what is distinctive about this book is that it provides a consistent and thorough-going utilitarian or consequentialist treatment of the fundamental normative issues that war occasions. Although it goes against the tide of recent work in the field, a utilitarian approach to the ethics of war illuminates old questions in new ways by showing how a concern for well-being and the consequences of our actions and policies shape the moral constraints to which states and other actors must adhere. This book will be of much interest to students of the ethics of war, just war theory, moral philosophy, war and conflict studies and IR.

SOCIAL AND PERSONAL ETHICS provides students with a sound introduction to ethical theory and contemporary moral issues through engaging readings on today's most hotly debated topics. Among other topics, coverage

includes environmental ethics and animal rights, the limits of personal liberty, war and the struggle against terrorism, marriage and sexual morality, the death penalty, gun control, and abortion and euthanasia. The volume begins with two introductory essays written for beginning students by the editor, William H. Shaw, on the nature of morality and competing normative theories. These are followed by five other essays on ethical theory by classical and contemporary authors. The book's next 12 sections explore a wide-range of real-world ethical issues. In all, the book is composed of 53 articles (11 of which are new to this edition). To ensure that the text is as accessible as it is relevant, Shaw has edited every article with an eye toward readability, provided introductions and study questions before the essays, as well as review and discussion questions after them, and highlighted key passages to help students focus on important points and concepts.

Energize your introductory ethics course with ETHICS IN THE WORKPLACE 3e, a text that combines a strong foundation in classic and contemporary theory, examples and analysis drawn from the workplace, ethical decision-making models, and a constant focus on self-reflection and moral reasoning. Learning becomes interactive with this completely revised edition that urges users to examine ethical situations in the workplace through the lens of ethical decision-making models. ETHICS IN THE WORKPLACE 3e bridges the gap between theory and reality by focusing on ethics in the workplace and offering real-world examples of ethical situations workers face. ETHICS IN THE WORKPLACE 3e users explore current American values and establish models by which to analyze them as they apply to accounting, finance, marketing, human resource, and management dilemmas. Drawing from news headlines and cases based on well-known people, there's never a shortage of relevant topics and applications. The text is a balanced combination of theory, examples, role plays, class discussion, and self-reflection activities that make studying ethics rewarding, interesting, and effective. Humanomics in business ethics / Deirdre N. McCloskey -- Introduction / Eugene Heath and Byron Kaldis -- Wealth and commerce in archaic Greece: Homer and Hesiod / Mark S. Peacock -- Aristotle and business: friend or foe? / Fred D. Miller, Jr -- Confucian business ethics: possibilities and challenges / David Elstein and Qing Tian -- The earthly city and the ethics of exchange: spiritual, social, and material economy in Augustine's theological anthropology / Todd Breyfogle -- Thomas Aquinas: the economy at the service of justice and the common good / Martin Schlag -- The ethics of commerce in Islam: Ibn Khaldun's Muqaddimah revisited / Munir Quddus and Salim Rashid -- Hobbes's idea of moral conduct in a society of free individuals / Timothy Fuller -- John Locke's defense of commercial society: individual rights, voluntary cooperation, and mutual gain / Eric Mack -- As free for acorns as for honesty: Mandevillean maxims for the ethics of commerce / Eugene Heath -- "Commerce cures destructive prejudices": Montesquieu and the spirit of commercial society / Henry C. Clark -- Hume on commerce, society, and ethics / Christopher J. Berry -- The fortune of others: Adam Smith and the beauty of commerce / Douglas J. Den Uyl -- Why Kant's insistence on purity of the will does not preclude an application of Kant's ethics to for-profit businesses / Norman Bowie -- Tocqueville: the corporation as an ethical association / Alan S. Kahan -- J.S. Mill and business ethics / Nicholas Capaldi -- Karl Marx on history, capitalism, and ... business ethics? -- William H. Shaw -- Friedrich Hayek's defense of the market order / Karen I. Vaughn -- The power and the limits of Milton Friedman's arguments against corporate social responsibility / Alexei Marcoux -- Beyond the difference principle: Rawlsian justice, business ethics, and the morality of the market / Matt Zwolinski -- Commitments and corporate responsibility: Amartya Sen on motivations to do good / Ann E. Cudd

Aimed at undergraduates, Contemporary Ethics presupposes little or no familiarity with ethics and is written in a clear and engaging style. It provides students with a sympathetic but critical guide to utilitarianism, explaining its different forms and exploring the debates it has spawned. The book leads students through a number of current issues in contemporary ethics that are connected to controversies over and within utilitarianism. At the same time, it uses utilitarianism to introduce students to ethics as a subject. In these ways, the book is not only a guide to utilitarianism, but also an introduction to some standard problems of ethics and to several important topics in contemporary ethical theory.

Ethical business creates social value. That ' s the theme of this bold new volume, heralding and defending this rapidlygrowing new conception of capitalism making its way into the mainstream. It provides clear and succinct guidelines for how to evaluate what counts as an ethical business as well as how and why ethical businesses tend to succeed better over the long term. The book is jargonfree and targeted primarily at thought leaders and academics in business and philosophy who will want to use it in their business ethics classes. Each chapter has been selected for its ability to engage a wide audience without oversimplifying the content. All twelve chapters are original and authored by leading business ethicists including William Shaw, Tony Simons, Duane Windsor, and Mark Schwartz. Each piece makes use of recent empirical evidence or ethical theory (or both) in order to present a detailed yet overarching picture of what ethical business looks likeand how to achieve itin today ' s global environment. It is thus divided into three subsections: 1. The Role of Corporate Culture 2. A New ForProfit Paradigm 3. Making the Change Happen: Voluntary and Regulatory Examples Perhaps the book ' s greatest strength is its blending of cuttingedge philosophy, psychology, and management theory into a cohesive, provocative, and accessible format. Hence, it promises to launch a wide discussion of what exactly we should expect the moral duty of business to be.
