The first words out of his mouth in a loud and obviously stressed voice were, "Mr. Lawson, you had cancer and now it's gone and I don't know what happened!" I replied, "Would you like for me to tell you." His response floored me when he said, "I don't want to hear it!" I still haven't understood that comment after all of these years... If there were a way to help patients, without chemo, radiation or surgery, wouldn't you logically, as a doctor, want to know about it? Alternatives in Cancer Therapy provides information on the research, efficacy, potential side effects, and availability of each treatment.

Fasting has long been used in Europe both as a preventative measure and as a cure, particularly for degenerative conditions, and to purge the body of impurities or toxins. Knowledgeable in this tradition, Rudolf Breuss, a naturopathic practitioner, developed a 42-day juice fasting programme to nourish the

body but starve cancer. Although fasting seems irrational when the body is already wasting away, Breuss's patients felt more alert and energetic as soon as they began the treatment. They continued to feel well throughout the fast. Unlike radiation, chemotherapy and surgery, the Breuss fast leaves the body strengthened and healthy. Breuss also provides naturopathic and sometimes unusual treatment suggestions for a wide range of conditions from leukaemia to rheumatism, infertility to cramps. Translated from the original German, this book will give hope to many who previously have not had access to Breuss's simple, effective cures.

As a registered acupuncturist, I have been researching for over 30 years on the best alternative holistic - body, mind and spirit - functional medicine based therapies for healing cancer and degenerative diseases that work. The main focus of the seven books of *You Hold the Keys to Healing* - is to heal the body, mind, and emotions by building the Qi of the energy body (lightbody or energy bubble) while achieving Self-realization through meditation and Qigong. This final seventh book "*The Cure & Cause of Cancer: An Alternative Holistic Approach to Heal Cancer*," is focused on the therapeutic measures to heal cancer manifesting in the body through the Budwig diet, Cessiac herbal formulas, electrotherapy, alkaline water, coconut oil, reishi mushroom and other tonic herbs to detox the body and boost the body's Wei Qi immune system fostering an anti-cancer terrain. Oriental medicine such as acupuncture, acupressure, pranic healing, meditation, and Qigong are also used to balance and build the body's Qi. An important therapeutic tool emphasized in this book is the addition of an unorthodox therapy using hydrazine sulfate to address the wasting syndrome problem often seen with cancer patients: cachexia. Basically, hydrazine sulfate inhibits gluconeogenesis (the liver's recycling of lactic acid into glucose) where the sugar is consumed in ever-increasing amounts by voracious cancer cells, and halt the leading cause of death in cancer: cachexia. Dr. Joseph Gold, the developer of hydrazine sulfate therapy said, "For the past 50 years the attention of the medical profession has been focused on the tumor. But all attempts to treat the tumor - to kill the tumor and therefore wipe out the disease - have in general been futile. During the past 50 years the death rate from this disease has reportedly hardly budged, decreasing at the most 5 percent overall, and in the major cancers not decreasing at all. Cytotoxic chemotherapy, the major weapon to defeat cancer in the last 50 years, has succeeded in killing cancer cells, but in killing normal cells, too,

and has been itself a cause of cancer mortality. Effective cancer control may lie, rather, with therapy of the 'shift' to glycolysis, than with tumor therapy, potentially obviating such developments as drug resistance and major drug toxicity. In this regard it is recognized that not only can the "metabolic shift to enhanced glycolysis" provide a basis for cancer treatment but that discovery of the regulatory mechanism(s) underlying this metabolic shift may be essential to the future development of anti-cancer therapy." Why do I, as a licensed health care professional, recommend Hydrazine Sulfate to my patients who are under the care of their medical doctors? Hydrazine sulfate is marketed in the United States and Canada as a dietary supplement /nutraceutical by some companies. In the United States and Canada, dietary supplements are regulated as foods, not drugs. In my over 30 years of cancer research, I also believe that hydrazine sulfate is the missing important therapeutic tool to solve the riddle of the wasting syndrome - cachexia - in cancer, and stop the voracious cancer cells to use glucose. "These studies in essence suggest that it would be sheer insanity for a cancer patient failing current therapy, not to try hydrazine sulfate. To wait until his/her disease becomes truly terminal, from which there is no return." - Dr. Gold BOOK UPDATES The main reasons for the updates: 1) I have included powerful herbs, ketogenic diet and coconut oil for cancer which are natural substitutes for the intake of hydrazine sulfate, an MAO inhibitor medication. 2) I have also included the reasons for acupuncture and the practice of meditation and Qigong as vital adjuncts to natural cancer therapy. 3) Finally, an electromagnetic healing technology invented in the Philippines can rebuild the body's Qi field by supplying negative ions needed to heal cancer and other chronic degenerative disease
