Caned at the Manor: an adult schoolgirl story

The real lives of women in Britain's country houses.

Minley Manor was a large family house that became part of a military training establishment and then an Officers Mess for the Corps of Royal Engineers. Yet the story of Minley Manor is also a story about the Currie family, whose three generations living at Minley created a magnificent manor house in an innovative architectural style. In Minley Manor, author Major Ian C Mattison shares the untold history of Minley Manor and the Currie family's hand in making it into a hidden jewel on the borders of North Hampshire and Surrey. After coming into possession of some long-lost documents and a narrative history of the manor, Ian offers a tribute to the manor and to the Currie family. First exploring the manors compelling architectural history and design, we are beckoned to look deeper into the manor to discover the fascinating story of a family involved in the political and financial affairs of the United Kingdom and at the heart of government. Minley Manor is a story not just about the buildings, the estate, and the gardens; it is the story of four generations of the Currie family who dwell there. The Currie family of Minley may well have been passed over in history, but the hope is that they may now take their rightful place as a dynasty who did indeed make significant and very worthwhile contributions to the very fabric of English society in the late nineteenth and early twentieth centuries.

Caned at the Manor: an adult schoolgirl story

History has often ignored the influence in modern Quebec of family dynasties, patriarchy, seigneurial land, and traditional institutions. Following the ascent of four generations from two families through eighteenth-century New France to the onset of the First World War, Patrician Families and the Making of Quebec compares the French Catholic Taschereaus and the Anglican and English-speaking McCords. Consulting private, institutional, and legal archives, Brian Young studies eight family patriarchs. Working as merchants or colonial administrators in the first generation, they became seigneurial proprietors, officeholders, and prelates. The heads of both families used marriage arrangements, land stewardship, and judgeships to position their heirs. Young shows how patriarchy was a central force in both domestic and public life, as well as the ways in which Taschereau and McCord family strategies extended into the marrow of Quebec society through moral authority, influence on national identities, and their positions within senior offices in religious, judicial, and university institutions. Through courthouses, cemeteries, bellfries, and their own chapels and neoclassical estates, they created encompassing cultural landscapes. Later generations used museums, archives, historian collaborators, photography, and modern print to elevate family achievement to the status of heroic national narratives. Sagas of the monied and entrepreneurial, nationalist imperatives to protect a vulnerable people, and skepticism about the lasting power of great families and historical institutions have relegated the influence of the Taschereaus and McCords to obscurity. Patrician Families and the Making of Quebec resuscitates the central role these elite families played in English and French Quebec.

Oloff Stevens Van Cortlandt (ca. 1600-1683/1684) and his son, Stephanus Van Cortlandt (1643-1700) immigrated from The Netherlands to land at confluence of the Croton and Hudson Rivers, and established their new estate, which grew to exceed 86,000 acres (about a third of present- dau Westchester County). The Van Cortlandt family sold the property in 1941, and in 1953 John D. Rockefeller Jr. purchased the manor house and about 175 acres to restore the house to its late 18th century appearance. The Van Cortlandt family donated many of the family possessions, and the 1941 sales were traced and repurchased where possible. This book includes many photographs of the family possessions, and includes a genealogical chart of the Van Cortlandt family.

Set in contemporary England, Rosebridge Manor a large country mansion with a difference. All of the staff there have given up all rights and work as slaves. Their master, Lord Rosebridge, or any of the other senior staff the slaves can do with the slaves precisely what they want to. The Book follows the story of Susan, a natural submissive who sells herself into slavery in order to save her father and sisters from destitution. In spite of the fact that upon arrival she is striped naked and subjected to a humiliating medical examination and is frequently humiliated, whipped, caned and far worse this is the life Susan has fantasises about for as long as she can remember. She loves her life as a slave, finding a purpose and meaning in being owned that she would never find in a boring nine to five job in a restaurant. She is trained in all manner of domestic and sexual skills and even used as a pony on more than one occasion. There are great highs, such as her triumph in an impromptu show put on to amuse the guests. There are great low points such as the time she was caught playing with herself and subjected to the most degrading and extreme punishment, but throughout it all Susan gives of her very best. She does not impress everyone though, and the Gardener would be more than happy to see the back of her. Will the gardener get his way or will she do enough to be allowed to stay? How could she possibly explain her reappearance to her family if she is made to leave? These fears, as well as the fear of extreme punishment, are with her throughout as she walks the knife edge of her week's trial. The book contains scenes of extreme Bondage, Domination and Sadomasochism but there are moments of pure joy and laughter in there as well. Join Susan on her journey into the erotically charged world of modern day slavery and laugh and cry with her as she fights to earn the life she had always dreamed of.

Caned at the Manor: an adult schoolgirl story

The real lives of women in Britain's country houses.

Minley Manor was a large family house that became part of a military training establishment and then an Officers Mess for the Corps of Royal Engineers. Yet the story of Minley Manor is also a story about the Currie family, whose three generations living at Minley created a magnificent manor house in an innovative architectural style. In Minley Manor, author Major Ian C Mattison shares the untold history of Minley Manor and the Currie family's hand in making it into a hidden jewel on the borders of North Hampshire and Surrey. After coming into possession of some long-lost documents and a narrative history of the manor, Ian offers a tribute to the manor and to the Currie family. First exploring the manors compelling architectural history and design, we are beckoned to look deeper into the manor to discover the fascinating story of a family involved in the political and financial affairs of the United Kingdom and at the heart of government. Minley Manor is a story not just about the buildings, the estate, and the gardens; it is the story of four generations of the Currie family who dwell there. The Currie family of Minley may well have been passed over in history, but the hope is that they may now take their rightful place as a dynasty who did indeed make significant and very worthwhile contributions to the very fabric of English society in the late nineteenth and early twentieth centuries.
