successful in your future."--Back cover.

"The Math Series provides a complete set of research-based educational materials to inspire all middle school students to master mathematical concepts and skills. The instructional materials align to the Common Core State Standards (CCSS) for mathematics, grades 6-8, which define what students should know and be able to do at each grade level. Our pedagogical approach focuses on how students think, learn, and apply new knowledge in mathematics and empowers them to take ownership of their learning."--Introduction.

"Integrate Math III is the final course in the three-course Integrated Math series. With this course, students further explore quadratic functions and extend learning to polynomial functions. Students extend their understanding of arithmetic and geometric sequences to series, and their knowledge of trigonometric ratios to trigonometric functions. Additionally, students explore distributions of data, confidence intervals, and statistical significance." -- publisher
