This history not only serves to acquaint us with the origins and development of Christian spirituality, but, equally importantly in the author's view, projects into our contemporary world the lives and teachings of men and women who have reached a high degree of sanctity through the ages. His study is Catholic in both senses of the word. He has concentrated his attention on the history of spirituality in the Roman Catholic Church; and he has taken a comprehensive view of the full range of forms of that Catholic tradition, including -- so that we can learn from the mistakes of the past -- the heterodox tendencies and movements that have arisen from time to time.

No Marketing Blurb

This book presents introductions to classics of Christian spiritual literature. Written in a popular, lively style, each essay is based on up-to-date research and insights into the place of the classics in a contemporary spirituality.

This book is about Catholic spirituality, which the author christens it as 'Catholic Christian Spirituality', which introduces this spirituality to those who dream about knowing it clearly and observing it validly and fruitfully but not fully realized their dream yet. It is a compilation of the Catholic Christian Spirituality's Scriptural foundations, its historical explications of the Church, its multi-dimensional applications, and its inner

and outer dynamics. Definitely the sole difference of this book from others, as the author writes, is the fact that "it is a book written with my red and warm blood as a personal journal of my experiential spirituality as a cradle New Age Catholic." Though this post-modern age is judged as one of the most secular ones, even as many comment it is an age of irreligiosity there are actually millions of people around the globe being hungry for spirituality and earnestly looking for help with their inner lives. Too many self-declared sages propose too many strategies as they like. Fr. Vima observes in those dealings many are too extreme or too sentimental or too conservative and liberal or too wordy and theoretical. With a heart of pastor, serving in many parishes in the States, he offers this book to the Catholic Christian friends who live, move in this turbulent period. This book is supposed to join in that group of works. In no way it seeks to be exhaustive or conclusive handbook or textbook on Catholic Christian spirituality or any sort of spiritual guidance. It consists of discussions on the basic elements of Catholic Christian spirituality, its various types, its motives and especially its dynamics. The author underlines this book's uniqueness as he writes: "In human communication it is said, 'one visual is worth thousand words'.

A readable overview of the contemporary spiritual scene that defines, outlines and advocates several models or methods for studying Christian spirituality. Aimed at college undergraduates and useful for those in spiritual counseling and direction.

The Christian faith has had a phenomenal impact on the development of the western world. This beautifully illustrated introduction to Christian spirituality through the centuries covers all the major traditions--East and West, Catholic, Orthodox, and Protestant, with special articles on key spiritual concepts, practices, and movements that continue to influence the way people all over the world live their lives in response to God. It also includes information on people and movements from outside the Church that have influenced Christian life and thought throughout 2,000 years. Also included are extracts from more than 100 of the greatest Christian spiritual writings--from the Gospels through the early Church Fathers, the saints and mystics, the reformers, and modern spiritual writers such as Scott Peck and C. S. Lewis.

Spirituality, or the cultivation of the with-God life, lies at the heart of what it means to be a Christian in the body of Christ. Bored by consumerism, satiated by sensualism, stressed-out by technology and depressed by the loss of the transcendent in life, people today are turning from the scientific 'what' and 'how' to the transcendent 'who' and 'why.' Indeed, the spiritually inclined represent one of America's largest 'faiths.' Interest in spirituality within the church thus is not a fleeting fad but a return to historic Christian roots. A book that focuses on the Church's search for identity, meaning and significance as interpreted by the major Christian traditions possesses considerable relevance to many in our day. Perspectives include the Eastern Orthodoxy, Roman Catholic, Evangelical and Liberal Protestant viewpoints. Currently, there exists no work that contains a side-by-side comparison of the major perspectives on spirituality as found within these Christian traditions. As such, there is great need for a volume that will examine and compare how the Church views and understands the topic of spirituality. In order to maintain a balance in content from the various traditions, contributors will focus their entries on the following areas: definition and key emphases of spirituality in their tradition; the relation of spirituality to spiritual formation; the means, disciplines or regimens by which spirituality is achieved; the ultimate goal of spirituality; and the role of Jesus, the Holy Spirit and the Church in the process of spiritual growth.

This work offers readers the insight and inspiration to live out the gospel of Jesus Christ, the 'glad tidings to the poor,' here and now. Mich weaves together the biblical tradition and the wisdom of Catholic social teaching with the stories of saints and spiritual leaders, contemporary and historical.

The presentations and speeches printed in this resource were given at a symposium on leadership for ministry with Catholic men, which was held on Dec. 4-7, 2001 in Palm Beach, Florida.

At last, not a touchy-feely guide to living in community but a practical, spiritual vision of community in a real world where nothing is perfect and all are welcome.
