The Law of Murder. Murder is the unlawful killing of a human being. The actus reus of murder consists of the unlawful killing of a human being in the Queen's peace while the mens rea of murder is malice aforethought which means the intention to kill or cause grievous bodily harm. Being convicted for murder holds a mandatory life sentence. There is no real way out of a mandatory life sentence ...

Criminal Justice Procedure gives clear guidance on the most common questions faced by today's law enforcement, offering fresh look at 21st century pre-trial protocol. Unlike other case books, this newly revised edition eschews legal theory in favor of the practical know-how needed to not to parse, but apply criminal law.

Emphasis has been placed on just exactly how practitioners should conduct hot-buadute procedures such as airport and border searches. Moreover, the book also addresses the often dire implications of deviating from proper practice - how a false step can translate into a violation of individual rights, or the inability to successfully prosecute the guilty. This edition has been specifically designed for CJ undergraduate programs (rather than higher-level law schools) and completely reorganized for a more logical flow of topics. Moreover, it is newly focused on the most crucial practical applications of the law in the CJ context. There is also added emphasis on the Fourth, Fifth, and Sixth Amendments.

A classic work in the anthropology of law, this book offered one of the first ambitiously conceived analyses of the fundamental rights and duties that are treated as law among nonliterate peoples (labeled primitive at the time of the original publication). The heart of the book is a description and analysis of the law of five societies: the Eskimo; the Ifugao of northern Luzon in the Philippines; the Comanche, Kiowa, and Cheyenne tribes of the western plains of the United States; the Trobriand Islanders of the southwest Pacific; and the Ashanti of western Africa. Hoebel's lucid analysis reveals the variety and complexity of these societies' political and legal institutions. It emphasizes their use of due process in adjudication and enforcement and highlights the importance of general explicit standards of conduct in these societies. In offering these detailed case studies of societies studied by other anthropologists, and in outlining an influential approach to the subject, it remains an illuminating book for both scholars and students.

***** CLICK THE AUTHOR NAME "MYCOMP PUBLICATIONS" FOR MORE COMPOSITION BOOK SUBJECTS ***** Be prepared and keep yourself organized for anything with this Composition Notebook!
