This introduction to environmental issues contains five integrating themes: the global scope of environmental issues; the importance of urban environments; sustainability; human population; and the ethical and economic basis for making choices about environmental issues. These themes are introduced at the beginning and are referred to throughout. In addition, each chapter begins with a case study illustrating the issues discussed.

All the tips and tools you need to realize the goal of balanced literacy learning. Students learn to read and write best when their teachers balance literacy instruction. Best-selling authors Douglas Fisher, Nancy Frey, and Nancy Akhavan help you strike the right balance of skills and knowledge, reading and writing, small and whole group instruction, and direct and dialogic instruction, so that

Physics teachers--great news! Now there's a guide to argument-driven inquiry (ADI) especially for you. Like the NSTA Press best-sellers for high school biology and chemistry, this book helps you build your students' science proficiency. It makes labs more authentic by teaching physics students to work the way scientists

do--by identifying questions, developing models, collecting and analysing data, generating arguments, and critiquing and revising reports. Argument-Driven Inquiry in Physics, Volume 1 focuses on mechanics and has two parts. The first part describes the ADI instructional model and the components of ADI lab investigations. The second part provides 23 field-tested labs covering a wide variety of topics related to forces and interactions, energy, work, and power. Some investigations are introductory labs that expose students to new content; others are application labs to help students try out a theory, law, or unifying concept. All are easy to use, thanks to teacher notes, student handouts, and checkout questions, and all align with the Next Generation Science Standards and the Common Core State Standards. You'll find this book to be a one-stop source of expertise, advice, and investigations that will take the
