Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be an excellent companion for clinics and teaching sessions and an excellent revision primer for graduate entry medical curricula. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula.

The Diploma in Otolaryngology - Head & Neck Surgery (DOHNS) is now an intercollegiate examination, and can count towards membership of one of the surgical colleges of Great Britain. The DOHNS has evolved to fit its new role, leaving little up-to-date material available for candidates preparing for the written component. This book by former DOHNS candidates meets that need, focusing on topics that are likely to be examined. Each answer is accompanied by an explanation using current evidence-based research wherever possible. This will be an essential revision text for all DOHNS candidates. 'Applicable to medical students and trainee doctors in general practice as well as ENT and related head and neck disciplines such as neurology and neurosurgery. Each question is followed by the correct answer and clear and concise explanation. Indeed, it is the quality of this additional information that makes this book stand out from its competitors. It provides the student with experience and examination technique in answering these questions, but additionally it is a teaching volume in its own right. It is a credit to its enthusiastic and very competent young teachers in its content, design and clarity, and is another excellent contribution to our thriving specialty.' - from the Foreword by David Howard

MCQs for ENT: Specialist Revision Guide for the FRCS is a key resource for candidates preparing to sit the FRCS (ORL-HNS). It contains over 300 single best answer questions and over 70 extended matching questions to help candidates prepare for all aspects of ENT they may face in this challenging exam. Written by expert consultants who have succeeded in the exam, this resource provides comprehensive coverage of theory and practice, including new questions on challenging topics such as electroneurography and voice clinic procedures, and questions on rare topics such as oropharyngeal cancers. All answers have full explanations, providing candidates with high-quality self-assessment in order to maximize exam success. Providing a thorough assessment of the reader's ENT knowledge, this is an essential revision book for any candidate facing the FRCS ORL-HNS exam.

Ear, Nose and Throat at a Glance provides a highly-illustrated, accessible introduction to this practical but complex topic, which is increasingly encountered in every-day outpatient settings, as well as surgical departments. Each double-page spread diagrammatically summarises the basic science relating to each anatomical area, outlines practical guidelines on the examination of patients, and provides an overview of the most common disorders and diseases. This brand new title in the best-selling at a Glance series features high-yield

information on all the topics covered at medical school, and includes: Advice on clinical skills, practical examinations and procedures, such as otoscopic examinations, and tuning fork tests Comprehensive illustrations showing anatomy and mechanisms of hearing Assessment, management and treatment of both chronic and acute conditions ENT trauma and emergencies Multiple Choice Questions (MCQs) and Extended Matching Questions (EMQs) to help test learning Ear, Nose and Throat at a Glance is the ideal companion for anyone about to start the ENT attachment, or 'special senses' rotation, and will appeal to medical students and junior doctors, as well as nurses, audiologists and other health professionals.

This book of multiple choice questions in otolaryngology has been specifically compiled for postgraduate medical students wishing to specialize in otolaryngology, but should also be useful to medical undergraduates with an interest in the subject. Cross-references throughout to the 6th edition of Scott-Brown's 'Otolaryngology' make these books the ideal package for all medical trainees wishing to enter this specialty.

This book of 318 multiple-choice questions covers all major areas of otolaryngology, including controversial aspects of clinical practice as well as basic anatomy and pathophysiology. It can be used as a revision aid and contains short notes which explain the authors' reasoning.

The final specialist exam taken by ENT surgeons is the Fellowship of the Royal College of Surgeons (Otorhinolaryngology - Head and Neck Surgery): the FRCS (ORL-HNS). It is usually taken towards the end of the 6-year specialist registrar (SpR) training and consists of two parts: multiple choice question (MCQ) papers and a clinical section. This book is a revision aid for the MCQ papers and is divided into two sections: Single Best Answer (SBA) and Extended Matching Item (EMI) questions. It will be essential reading for any candidate for this exam. The final specialist exam taken by ENT surgeons is the Fellowship of the Royal College of Surgeons (Otorhinolaryngology - Head and Neck Surgery): the FRCS (ORL-HNS). It is usually taken towards the end of the 6-year specialist registrar (SpR) training and consists of two parts: multiple choice question (MCQ) papers and a clinical section. This book is a revision aid for the MCQ papers and is divided into two sections: Single Best Answer (SBA) and Extended Matching Item (EMI) questions. It will be essential reading for any candidate for this exam.

This book is a complete guide to the diagnosis and management of ENT diseases for undergraduate medical students and trainees in otolaryngology. Divided into nine sections, the text begins with an overview of the anatomy and physiology of each part of the otolaryngologic system and explains bacteria, antibiotics, fungi and viruses, and HIV. The following sections cover numerous diseases and disorders in each otolaryngologic region – ear, nose and sinuses, oral cavity and salivary glands, pharynx and oesophagus, larynx, trachea and bronchus; and neck. The final chapters discuss surgical procedures, imaging, radio- and chemotherapy, anaesthesia, and laser surgery. The second edition has been fully revised to provide students with the latest information, and features many new topics, including a clinical highlights section to assist preparation for examinations, and a comprehensive appendix of 101 clinical secrets, problem-oriented clinical cases, and miscellaneous key points. The book is accompanied by a complimentary online resource featuring the full text as an ebook, MCQs with image-based questions, live surgery videos, and animation. Key points Fully revised, second edition providing comprehensive guide to ENT diseases Includes clinical highlights section and comprehensive appendix to assist with exam preparation Accompanied by free online

resource featuring ebook, MCQs, and surgical videos Previous edition (9789350259436) published in 2012

The twelfth edition of this textbook has been fully revised to present undergraduates and ENT trainees with the most recent advances in the diagnosis and treatment of ear, nose and throat diseases. Organised by anatomical region, each section begins with anatomy and physiology then covers the investigation, diagnosis and management of related diseases and disorders. Each section includes multiple choice questions (MCQs) for self assessment. This new edition includes many new illustrations, as well as additional chapters on neck masses, chemotherapy for head or neck tumours, otolaryngologic concerns in syndromal children, and histopathology of common ENT diseases. Key points Fully revised, new edition on ear, nose and throat diseases Organised by anatomical region, covering many disorders MCQs included for self assessment in each section Nearly 400 full colour images and illustrations Previous edition published in 2008

The One Stop Doc books have been designed by medical students for medical students to consolidate their knowledge, subject by subject and system by system. For each area studied there are only so many questions an examiner can ask; they are presented here with clear explanations that allow students to revise thoroughly one topic at a time. While doing so students can also practise their exam technique. Each book includes MCQs, EMQs, SAQs and Problem-based Questions - exactly the kind of questions students will get in their exams. Illustrated with simple, easy-to-reproduce line drawings, medical students have in this one volume all that they need for exam success.
