"Pathways to Learning Environmental Science: A Study Guide for Success" is a workbook and study guide designed to be used in conjunction with standard required texts in Environmental Studies courses. Used over the duration of a course it enhances comprehension, increases retention, and improves test scores. The book contains tear-out pages that can easily be attached to class notes or other course materials. Chapters feature questions and fill in the blank exercises, allowing students to check their understanding of the subject matter, and assess their progress early on. Everything in the book is designed to answer the question What do I need to know? . The fourteen chapters of the book cover the many areas involved in environmental studies, including chemical, physical, biological, and earth science principles, earth sphere, and biomes. Also covered are environmental cycles, material and energy resources, pollution, and environmental laws and regulations. Each chapter begins with an explanation of the topic to be discussed, and indicates where in a textbook students can find complete discussions, figures, charts and tables. Chapter exercises are presented in multiple choice, fill in the blank, and matching formats, allowing students many opportunities for self-evaluation prior to taking class examinations. Of special note is the Rap City in Green feature of the book, which reviews major concepts in verse form. The musicality of the verses enhances appeal, and is a highly effective memory aid. "Pathways to Learning Environmental Science" is an excellent support tool for students in general education Environmental Science courses. Alan Jacobs received his PhD from Indiana University, Bloomington. Currently he is a Professor in the Department of Geological and Environmental Sciences at Youngstown State University in Youngstown, Ohio where he has taught and conducted research in environmental studies, geology, and public health.

Environmental Science study guide also includes flashcards that are bound into the back of the book. Use these to memorize key concepts and terms. Anyone can take and pass a DANTEs test. What are you waiting for? ****Testimonials****I would like to thank you for your study guides. I will be graduating in December with two bachelor degrees and CLEP helped me get there quickly. I gained 36 credits through CLEP and your study guides helped me through almost all of them. I can honestly say that I would not have passed many of the tests without your guides. Great products. Thanks!! -Erin W.****I passed the test - Kim L.****I was successful with Intro. to Law Enforcement and Criminal Justice. -Bruce D. ****I want to thank you for your study guides! I've taken and passed six CLEP/DANTEs tests with the help of your study guides for 18 hours. Thanks so much! -Lynda T.****I have bought seven (DANTEs) study guides from you guys and I have passed all the seven tests. I really appreciate it. Now, I will start my journey with the CLEPs. You have saved me approximately \$7,000. Thanks again. -Cesibel H.****I have been a dedicated customer and have bought numerous study guides. In all, I have bought about 12 of your study guides and have passed every test. Kudos! -Oveta F.****

REA's AP Environmental Science Crash Course is the first book of its kind for the last-minute studier or any AP student who wants a quick refresher on the course. /Written by an AP Environmental Science teacher, the targeted review chapters prepare students for the test by only focusing on the important topics tested on the AP Environmental Science exam. /The easy-to-read review chapters in outline format cover everything AP students need to know for the exam: human population dynamics, managing public lands, energy conservation, changes in Earth's climate, species extinction, loss of biodiversity, and more.
