The *Physician's Assistant* provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Do professions really place duty to society above clients' or their own interests? If not, how can they be trusted? While some public relations (PR) scholars claim that PR serves society and enhances the democratic process, others suggest that it is little more than propaganda, serving the interests of global corporations. This is not an argument about definitions, but about ethics - yet this topic is barely explored in texts and theories that seek to explain PR and its function in society. This book places PR ethics in the wider context of professional ethics and the sociology of professions. By bringing together literature from fields beyond public relations - sociology, professional and philosophical ethics, and Jungian psychology - it

The Physician Assistant integrates a new body of ideas into the debate. The unprecedented introduction of Jungian psychology to public relations scholarship shifts the debate beyond a traditional Western 'Good/Bad' ethical dichotomy towards a new holistic approach, with dynamic implications for theory and practice. This thought-provoking book will be essential reading for students, academics and professionals with an interest in public relations, ethics and professionalism.
