The Discourse of Tourism and National Heritage: A Contrastive Study from a Cultural Perspective presents an in-depth research study in the field of online tourism promotion. It focuses on the national online promotion of UNESCO World Heritage Sites, on two different types of websites – institutional and commercial – from three countries, Romania, Spain and Great Britain. The book analyses the way in which each country combines various modes to create a virtual brochure with a promotional message from both institutional and commercial positions. In doing this, it studies the organization of the websites and their webpages, as well as the lexico-grammatical and visual features of their promotional messages. The theoretical framework used is Systemic Functional Linguistics (Halliday 1985, 1994; Kress and van Leeuwen 1996, 2006; Halliday and Matthiessen 2004). The results are compared in relation to the types of websites and to the countries in which they were produced. These are further interpreted from a cultural perspective, showing that the findings can be accounted for by cultural variability, in particular the dimension of context (Hall 1976, 1990, 2000).

'Basic Italian' provides readers with the basic tools to express themselves in a wide variety of situations. The book contains 23 individual grammar points in lively and realistic contexts.

"This book sets out to establish the state of the art of screen translation and at the same time to underscore the work of scholars following new paths of investigation both in terms of innovative linguistic mediations being examined and pioneering experimental design." "The volume includes descriptions of sophisticated electronic databases and corpora of audiovisual products for the big and small screen, and the rationale behind them. Furthermore, *Between Text and Image* also includes a number of cutting edge studies in audience perception of audiovisual products." "Finally, the volume does not fail to ignore examples of original research carried out from both a traditional linguistic viewpoint and from a more cultural perspective."--P. [4] de la couv.
