Classical commentary on Mah?niddesa, Buddhist canonical text; critical edition.

A multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the world's leading arts and humanities journals, and it indexes individually selected, relevant items from over 6,800 major science and social science journals.

A much-needed, comprehensive and up-to-date thematic and historical survey of Hinduism.

This unique study of the genesis and development of the earliest form of Buddhist self-defense practiced by Chuan Fa monks and mystics shows both the philosophical and physical basis of the skills developed and passed on to subsequent generations. This book seeks to reunite these concepts. Its teaching draws equally on the practices of North Chinese Chaan Movement Meditation Traditions and on the South Chinese Esoteric (Mi Chiao) School--both secret traditions rarely revealed to the general public. The material is presented so readers can understand that what we think of as a competitive sport is really a meditation mandala in action. Extensive appendices list the main Chinese dynasties, a chronology of Buddhist Sutras, a chronological record of scriptures, teachers, events during 1000 years of Indian and Chinese Buddhism, and translations of Bodhidharma`s texts including The Six Gates, Entering the Buddha`s Path, and the treatise upon the Bloodline Teaching of True Dharma.
