Both new and veteran preachers alike find the annual stewardship sermon a challenge and are eager for encouraging, practical advice. In Preaching and Stewardship, Craig Satterlee offers a nuts-and-bolts handbook on preaching stewardship, raising issues preachers need to consider when preparing stewardship sermons and offering advice on how to address them. Satterlee argues that stewardship preaching must include a bold and concrete proclamation of God's love, will, and justice, as well as an invitation to grow as stewards in response to this proclamation. He focuses each chapter on a question preachers ought to ask themselves as they prepare the stewardship sermon, beginning with, "What do you mean by stewardship?" and "Why should we give to the church?" In chapters 3 through 6, he explores what the Bible says about stewardship. In chapter 7, he names some of the assumptions both preachers and worshipers bring to the stewardship sermon. The final chapter a variety of ways congregations can support the stewardship sermon. Satterlee illustrates the premise of each chapter with anecdotes from congregational life. Preachers who desire examples of stewardship sermons will especially appreciate stewardship sermons he shares from various preachers to illustrate points in the main text.

An authoritative guide to accurately interpreting and applying God's Word In this second edition of Invitation to Biblical Interpretation, Andreas Kostenberger leads the reader step-by-step through the process of interpreting and applying God's Word. The primary principle is the hermeneutical triad, which consists of history, literature, and theology. Readers are equipped to explore the historical background of a biblical passage, analyze its literary genre and features, and derive its theological meaning in light of the biblical canon. Numerous examples are provided throughout to illustrate the concepts. A concluding chapter provides direction on practical application, preaching, and helpful tools for Bible study. Additional features include key words and definitions at the end of each chapter, study questions, and practical exercises for applying the material. An appendix lists numerous resources for Bible study, including recommended commentaries for every book of the Bible. The second edition updates these resources, as well as the sources cited throughout, and includes a revised chapter on the Old Testament canon. Instructors, students, pastors, and anyone who desires to interpret Scripture accurately will find this volume to be an indispensable addition to their library.

"The Bible is what God has made. Sermons are what we make with what God has made." This is the foundation for developing expository messages, according to Ramesh Richard. His method, explained in Preparing Expository Sermons, has been field-tested in training seminars for thousands of preachers around the world. Richard's book is a simple do-it-yourself resource for developing and preaching expository sermons. It guides the reader through a seven-step process, with many practical suggestions and illustrative charts along the way. In addition, there are eleven appendixes that include information on: o how to choose a text o preaching narratives o understanding your audience o forms of sermon introduction A comprehensive sermon evaluation questionnaire is included as well. Preparing Expository Sermons, an updated and expanded version of Scripture Sculpture, is ideal for beginning preachers, lay preachers without formal training, or any pastor who is looking for a refresher course in expository sermon preparation.
