Journal of Acquired Immune Deficiency Syndromes, 4, 144-153.

The Social Security Administration (SSA) uses a screening tool called the Listing of Impairments to identify claimants who are so severely impaired that they cannot work at all and thus qualify for disability benefits. In this report, the Institute of Medicine (IOM) makes several recommendations for improving SSA's capacity for determining disability benefits more accurately and quickly using the HIV Infection Listings.

Summarizes the contents of magazine articles which discuss the medical, psychological, social and political aspects of the disease
