JUMP Math - YouTube

JUMP Math is a numeracy program. JUMP Math is dedicated to enhancing the potential in children by encouraging an understanding and a love of math in students and educators. JUMP Math replaces the self-fulfilling myth that some people are born with mathematical ability while others do not have the ability to succeed with assumptions that all children can be led to think mathematically.

JUMP Math | Every child can learn math and love it!

1. Stringing: $34 + 45 + 63 = 34 + 40 + 5 + 63 = 74 + 5 = 79$ This can very well be shown on the empty number line: The shorter version is when the tens are added at one go: This last diagrams show something that is very close to what goes on in the mind of most humans when $34 + 45 + 63$ is calculated by heart.

Some of the worksheets for this concept are 1 2 2 2 2, Jump math multiplying potential, The animal that jumps higher than a house, Grade 6 geometry work, Teachers guide workbook 6 jumpmath, Length word problems mixed.

John Mighton's JUMP program is changing the way math is taught, and his powerful math workbooks give children the tools they need to master this crucial subject. The key is a step-by-step teaching method that isolates and describes concepts so clearly that anyone can understand them: students build on their successes, becoming proficient at solving problems with confidence and enthusiasm. Now, parents and caregivers can bring the JUMP program home. These workbooks follow the current student worksheets used by JUMP tutors and classroom teachers, including: an introduction for parents and caregivers that clearly explains the thinking behind the program and provides hours of activities, worksheets carefully designed to enable children to move from one success to the next, a glossary of math terms, and a selected answer key.
