This unique book, written by specialists from the UK, the USA, Canada, Australia and South Africa, bridges the disciplines of clinical pathology, internal medicine and critical care in a single volume. The Manual is divided into three sections: haematology, haemostasis and transfusion medicine. Within each section, review chapters are augmented by contributions on selected topics of interest to the practitioner. Methods of sample collection and interpretation for routine haematology, haemostatic function and bone marrow analysis are reviewed and new developments, such as flow cytometry for typing leukaemias, outlined. The diagnosis and management of a range of major infectious, immune-mediated and neoplastic diseases of the haematopoietic system are discussed. A chapter on canine babesiosis is timely, given the recent reports of cases in the UK, and a chapter is also included on the feline pathogen *Haemobartonella felis*. A wealth of excellent colour photographs throughout the book illustrates cell types and abnormalities, plus techniques such as blood transfusion. The range of coverage and the practical information in this Manual will render it of great value in the practice setting. These days almost everyone is concerned about their health and appearance. We are constantly bombarded with ways to improve ourselves through diet and exercise. Unfortunately, many of these so-called solutions are only temporary and will ultimately lead to failure and disappointment. The Fat Fighter Diet offers a lifestyle change that focuses on individual needs instead of presenting a one-size-fits-all approach. Award-winning personal trainer Bruce Krahn provides an outline for health and well-being that is formulated for the individual. He determines just how much food a person should be eating and what kinds of exercise should be done based on body type, fitness level and personal goals. The focus is on fat loss, not weight loss, which will subsequently lead to improved health and increased levels of fitness. In an approach that is accurate and comprehensive, but not mired with medical jargon or gimmicky promises, Krahn helps men and women alike develop an action plan for taking control of their life. The Fat Fighter Diet is a guide to assist those who are dedicated to achieving optimum health and permanent fat loss. It's like having your own personal trainer and dietician, to help you fight the fat!

Friendship, ambition, betrayal - the brilliant novel from the author of BITTER CHOCOLATE. Nic, Caryn and Tory: three girls who form a friendship that should last a lifetime. Nic is the daughter of a white Zimbabwean business tycoon. Despite a life of jaw-dropping wealth and privilege, all she really wants is a bit of attention from daddy. Caryn never met her father - but growing up on a tough London sink estate, she had other things to worry about. Like getting out and moving on. Tory just yearns for some space to be herself. Living in the shadow of your dead sister is tough, particularly when she seemed to be everything you're not. Then beautiful, ruthless Estelle McKenzie appears on the scene. Estelle has a secret - and one way or another, she's going to make each woman pay a very high price for it.

Featuring an ideal balance of managerial issues and quantitative techniques, this introduction to operations management keeps pace with current innovations and issues in the field. It presents the concepts clearly and logically, showing readers how OM relates to real business. The new edition also integrates the experiences of a real company throughout each chapter to clearly illustrate the concepts. Readers will find brief discussions on how the company manages areas such as inventory and forecasting to provide a real-world perspective.

Exploring an important aspect of coming of age, this book examines how the black community can institutionalize rites of passage as part of the child-rearing process.
