This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.

Surveying Sixth Edition is designed to cover the standard topics in a basic surveying course in a streamlined manner, meeting the learning needs of today's student. This text provides comprehensive yet concise coverage of the essential skills necessary in surveying and civil engineering, such as measurement, distance corrections, leveling, angles, area computation, computer calculations, topographic surveying, electronic distance measuring instruments, and construction surveying. The text includes photos and diagrams, lists of useful addresses and degree programs, surveying tables, and formulas. New co-authors Wayne A. Sarasua and William J. Davis bring a fresh perspective to this classic text. This text is suitable for students in a one-semester course at two and four-year colleges taking their first course on surveying.

Heidegger Explained is a clear and thorough summary of the philosophy of Martin Heidegger (1889–1976). It gives a fascinating explanation of all stages of Heidegger ' s life and career, and shows his entire philosophy to emerge from one simple but profound insight. Many philosophers believe that Heidegger was the greatest philosopher of the twentieth century. His influence has long been felt not just in philosophy, but also in such fields as art, architecture, and literary studies. Yet the great difficulty of Heidegger ' s terminology has often scared away interested readers lacking an academic background in philosophy. Author Graham Harman shows that Heidegger is actually one of the simplest and clearest of thinkers. All the diverse topics of his writings, and all the lengthy analyses he gives of past philosophers, boil down to a single powerful idea: being is not presence. In any human relation with the world, our thinking and even our acting do not fully exhaust the world. Something more always withdraws from our grasp. Neither being itself nor individual beings are ever fully " present-at-hand, " in Heidegger ' s terminology. This single insight allows Heidegger to revolutionize the phenomenology of his teacher Edmund Husserl. The method of Husserl was to focus entirely on how things present themselves to us as phenomena in consciousness. Heidegger understood that the things are always partly hidden from consciousness, living a secret life of their own. Human beings are not lucid scientific observers staring at the world and describing it, but instead are thrown into a world where light is always mixed with shadow. For Heidegger, the entire history of philosophy has reduced being to some sort of presence, whether by defining it as atoms, consciousness, perfect forms, the will to power, or even God. In this way, past philosophers have all chosen one specific kind of privileged being to represent being itself. Yet this is impossible, since being always partly withdraws from any attempt to define it. For this reason, philosophy needs to make a new beginning, one that would be just as great as the first beginning in ancient Greece. The book ends by shedding new light on Heidegger ' s concept of the fourfold, which is so notoriously difficult that most commentators avoid it altogether.

The original CliffsNotes study guides offer a look into critical elements and ideas within classic works of literature. The latest generation of titles in this series also feature glossaries and visual elements that complement the classic, familiar format. CliffsNotes on Death of a Salesman shares an intimate glimpse into the dreams and disappointments of an American family. Following the story of Willy Loman, an aging salesman who can't accept change within himself and society, this study guide provides a character list, character map, and character analyses to explore the personalities within Arthur Miller's masterful play. Other features that help you figure out this important work include Personal and career background of the author Introduction to and brief synopsis of the play Summaries and expert commentaries for each act and scene Essays that explore the play's major themes and the author's manipulation of time and space A review section that tests your knowledge and suggests essay topics and practice projects A Resource Center full of books, publications, films, and Internet resources Classic literature or modern-day treasure—you'll understand it all with expert information and insight from CliffsNotes study guides.

"Barlett and Steele...are masters at mining obscure documents to see the big picture where most investigators never even knew there was a frame...Year after year, Congress continues to make tax laws more complex and more unfair, then refuses to give the IRS adequate resources to ferret out fraud. WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an essay transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army—Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the " Turning the Tide " project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia
