The assessment structure of Unit 4, Physics on the Move is the same as that of Units 1, 2 and 5, consisting of Section A with ten multiple choice questions, and Section B with a number of short answer questions followed by some longer, structured questions based on contexts of varying familiarity. This was a relatively straightforward paper that allowed candidates of all abilities to demonstrate their knowledge and understanding of Physics by applying them to a range of contexts with ...

Due to the cancellation of the May and June exam series in 2020, we're aware that teachers may wish to use the 2019 summer and 2019 November exam papers for mock exams. Therefore, we'll not be releasing the 2019 summer and 2019 November exam papers at this time, but we'll make them freely available for students to download at a later date .

Edexcel Int. A Level Physics revision resources. Questions organised by topic, past papers & mark schemes. Created by teachers for Physics revision.

Make the Grade in AS and A2 Physics is a comprehensive revision guide for students.

Developed for the new International A Level specification, these new resources are specifically designed for international students, with a strong focus on progression, recognition and transferable skills, allowing learning in a local context to a global standard. Recognised by universities worldwide and fully comparable to UK reformed GCE A levels. Supports a modular approach, in line with the specification. Appropriate international content puts learning in a real-world context, to a global standard, making it engaging and relevant for all learners. Reviewed by a language specialist to ensure materials are written in a clear and accessible style. The embedded transferable skills, needed for progression to higher education and employment, are signposted so students understand what skills they are developing and therefore go on to use these skills more effectively in the future. Exam practice provides opportunities to assess understanding and progress, so students can make the best progress they can.

Part of our hugely successful series of AS and A2 revision guides, this guide will help your students prepare for their exams.

Electrical and thermal physics is part of a series of lively, high-quality texts for senior physics students.

The revised edition of the highly successful Nelson Advanced Science Physics series comprises lively, high quality student books for AS and A2 Level Physycs. Nelson Thornes and Edexcel have listened carefully to customer feedback to bring the best, most accurate and up-to-date materials to the classroom. This is the only fully ensorsed Advanced Level modular Edexcel specific course and Mechanics and Radioactivity provides full content coverage of Unit 1 of the AS and A2 Level specifications.

The revised edition of the highly successful Nelson Advanced Science Physics series comprises lively, high quality student books for AS and A2 Level Physycs. Nelson Thornes and Edexcel have listened carefully to customer feedback to bring the best, most accurate and up-to-date materials to the classroom. This is the only fully ensorsed Advanced Level modular Edexcel specific course and Waves and Our Universe provides full content coverage of Unit 4 of the AS and A2 Level specifications.

Written by a senior examiner, Mike Benn, this Edexcel AS Physics Student Unit Guide is the essential study companion for Unit 1: Physics on the Go.This full-colour book includes all you need to know to prepare for your unit exam: clear guidance on the content of the unit, with topic summaries, knowledge check questions and a quick-reference index examiner's advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade

Endorsed by Edexcel Help students to build and develop the essential knowledge and skills needed, provide practical assessment guidance and plenty of support for the new mathematical requirements with this Edexcel Year 1 Student Book. - Supports practical assessment with Practical Skill summaries throughout - Provides support for all 16 required practicals with detailed explanations, data and exam style questions for students to answer - Builds understanding and knowledge with a variety of questions to engage and challenge students throughout the course: prior knowledge, worked examples, Test Yourself and Exam Practice Questions - Acts as an aid for the mathematical requirements of the course with worked examples of calculations and a dedicated 'Maths in Physics' chapter - Develops understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries Edexcel A level Physics Student Book 1 includes AS level.

Help students to develop their knowledge and build essential skills with practical assessment guidance and plenty of support for the new mathematical requirements in this updated, all-in-one textbook for Years 1 and 2. Combining everything your students need to know for the Pearson Edexcel A level Physics specification, this revised textbook will: - Support practical assessment with practical skill summaries throughout. - Provide support for all 16 required practicals with detailed explanations, data and exam style questions for students to answer. - Build understanding and knowledge with a variety of questions to engage and challenge students throughout the course: prior knowledge, worked examples, 'Test yourself' and exam practice questions. - Aid mathematical understanding and application with worked examples of calculations and a dedicated 'Maths for Physics' chapter. - Develop understanding and enable self- and peer-assessment with free online access to 'Test yourself' answers.
