comprehensive print reading projects
at end of text.

Accurately interpret graphic and written construction documents
Construction documents are the vital link between the architect's vision and the finished physical structure.
Building professionals must accurately read and follow these documents in order to build a given design in the most efficient way possible. *Print and Specifications Reading for Construction* explains exactly how to interpret construction documents, offering students and professionals a complete package for learning and understanding. The text clearly lays out different graphic and written document types, how they developed, what information they contain, and their current use in residential and
