THE BEST RESOURCE A PILOT CAN HAVE TO UNDERSTAND HOW TO FLY IN ALL TYPES OF WEATHER How do you improve on the best guide for pilots to learn how to fly in all kinds of weather? The answer is the Fifth Edition of *Weather Flying*. Regarded as the bible of weather flying, this aviation classic not only continues to make complex weather concepts understandable for even the least experienced of flyers, but has now been updated to cover new advances in technology. At the same time, this respected text still retains many of its original insights from over four decades of publication, provided by renowned weather flying veteran Robert N. Buck. In a straightforward style, new author Robert O. Buck (son of the book's original author) delves into how computers, personal electronic devices, electronic flight instrument systems, and other technologies are changing the way general aviation pilots fly weather. He addresses the philosophy and discipline required to use these systems, what they are really telling us, and their task as supplement to good flying sense. The updated Fifth Edition also discusses how to handle changes in FSS weather briefing, including a look at new weather information products and airborne datalink weather information as they affect weather flying. This new edition features: Discussions of weather information--what it is, how to get it, and how to use it Explanations of various weather phenomena and how they affect a flight Updates on the new GPS and smart technology used in weather flying Changes in weather information and briefings Descriptions of improved anti- and deicing systems Serious discussion of the pilot-electronics interface Now more than ever, having the Bucks' *Weather Flying* at the controls is the next best thing to having the authors with you in the cockpit.

In a tie-in to a one-man show that will be touring the United States in Fall 2010, a comedian offers a charming, funny memoir about first love, denial, sleepwalking and the perils and pitfalls of being ... himself.

What makes The Best 379 Colleges the most popular college guide?
