Calla not only saves the last wildflower in the big city, but she soon learns that she has saved much more. This generation of children may be the last to see monarch butterflies due to deforestation, population growth, construction and the loss of wildflower meadows where milkweed naturally occurs in the U.S. It is our hope that this book will ignite a spark in present and future generations to help save North America's most recognized butterfly.

A riveting biography of the groundbreaking innovator who was a giant in the worlds of computing, music, filmmaking, design, smart phones, and more. A finalist for the YALSA Excellence in Nonfiction Award! "Your time is limited... have the courage to follow your heart and intuition."—Steve Jobs From the start, his path was never predictable. Steve Jobs was given up for adoption at birth, dropped out of college after one semester, and at the age of twenty, created Apple in his parents' garage with his friend Steve Wozniack. Then came the core and hallmark of his genius—his exacting moderation for perfection, his counterculture life approach, and his level of taste and style that pushed all boundaries. A devoted husband, father, and Buddhist, he battled cancer for over a decade, became the ultimate CEO, and made the world want every product he touched, from the Macintosh to the iPhone, from iTunes and the ultimate iPod to the MacBook. Critically acclaimed author Karen Blumenthal takes us to the core of this complicated and legendary man while simultaneously exploring the evolution of computers. Framed by Jobs' inspirational Stanford commencement speech and illustrated throughout with black and white photos, this is the story of the man who changed our world. Read more thrilling nonfiction by Karen Blumenthal: Hillary Rodham Clinton: A Woman Living History (A YALSA Excellence in Nonfiction Award Finalist) Bootleg: Murder, Moonshine, and the Lawless Years of Prohibition Tommy: The Gun That Changed America Praise for Steve Jobs: The Man Who Thought Different: A Biography: "This is a smart book about a smart subject by a smart writer." —Booklist, starred review "Students who know Steve Jobs only through Apple's iTunes, iPhones, and iPads will have their eyes opened by this accessible and well-written biography." —VOYA "An engaging and intimate portrait. Few biographies for young readers feel as relevant and current as this one does." —The Horn Book Magazine "A perceptive, well-wrought picture of an iconic figure." —Kirkus Reviews "Blumenthal crafts an insightful, balanced portrait." —Publishers Weekly

Multiple factor analysis (MFA) enables users to analyze tables of individuals and variables in which the variables are structured into quantitative, qualitative, or mixed groups. Written by the co-developer of this methodology, Multiple Factor Analysis by Example Using R brings together the theoretical and methodological aspects of MFA. It also includes examples of applications and details of how to implement MFA using an R package (FactoMineR). The first two chapters cover the basic factorial analysis methods of principal component analysis (PCA) and multiple correspondence analysis (MCA). The next chapter discusses factor analysis for mixed data (FAMD), a little-known method for simultaneously analyzing quantitative and qualitative variables without group distinction. Focusing on MFA, subsequent chapters examine the key points of MFA in the context of quantitative variables as well as qualitative and mixed data. The author also compares MFA and Procrustes analysis and presents a natural extension of MFA: hierarchical MFA (HMFA). The final chapter explores several elements of matrix calculation and metric spaces used in the book.

"It's time to fall in love with Suzanne Enoch." —Lisa Kleypas The Price of Passion... On a mission to rescue his runaway sister from the lure of flowery compliments and a useless lot of satin-clad scalawags disguised by their snooty titles, Ranulf MacLawry, Marquis of Glangask, has roared into British society like a storm across the Scottish Highlands. But he's about to find out that satin has its appeal, especially when it covers the curves of Miss Lady Charlotte Hanover—whose tongue is as sharp as her skin is soft.... is Pure Pleasure Lady Charlotte Hanover has had her fill of hot-headed men, having lost her fiancé in an utterly unnecessary duel. When did brawn ever triumph over brains? And yet there is something solid and appealing about the brash Highlander who's as dangerous in the ballroom as in battle. Sometimes bigger really is better... in The Devil Wears Kilts. "Always an eagerly anticipated pleasure." —Christina Dodd

When she falls in love with Arran MacLawry, one of her clan's longtime rivals, Mary Campbell, despite the fact that any contact between them is strictly forbidden, risks everything to be with the enemy. Original.
