With nearly fifty years combined global church-planting experience, Craig Ott and Gene Wilson are well qualified to write a comprehensive, up-to-date guide for cross-cultural church planting. Combining substantive biblical principles and missiological understanding with practical insights, this book walks readers through the various models and development phases of church planting. Advocating methods that lead to church multiplication, the authors emphasize the role of the missionary church planter. They offer helpful reflection on current trends and provide best practices gathered from research and empirical findings around the globe. The book takes up a number of special issues not addressed in most church planting books, such as use of short-term teams, partnerships, and wise use of resources. Full of case studies and real examples from around the world, this practical text will benefit students, church planters, missionaries, and missional church readers.

Every aspect of planting a church is personal. Like giving birth to a child, church planters give all they have to start new churches. So when people leave the church or criticize it, it's hard not to take it personally. And while many pastors feel called by God to plant new churches, few are prepared for the inevitable toll it can take on their lives...and their families and friendships. Brian and Amy Bloye know firsthand that planting churches isn't easy. While planting a church, they learned that God does not promise to make up for mis-guided priorities. In this book they talk about having a healthy marriage, raising children, finding the right balance of family and ministry, dealing with spiritual warfare, staffing and leadership challenges, and dealing with criticism—issues every church leader must deal with. An authentic manual for day -to -day life in ministry, couples will learn to identify and relate to experiences in the book, and will come away feeling empowered and inspired to thrive - not only in planting a church, but also for the long haul of life and ministry. They will also be challenged and encouraged to avoid some of the pitfalls of planting a church and be equipped to build, not just strong, prevailing ministries, but healthy marriages and families. It will also include intimate interviews in each chapter with several church planting couples who will open up their personal lives to give the reader some practical, real, authentic advice on dealing with some of the chal-lenging issues that church planters face everyday.

A groundbreaking guide for multiplying the impact of church plants Based on a study that was commissioned by the Leadership Network, this book reveals the best practices in church planting and uncovers the common threads among them. A much-needed resource, this book will inform, guide, and even catalyze today's many church planting leaders. The authors clearly show leaders how to plant churches that create a multiplication movement and offer inspiration for them to do so. The book addresses their questions about what to do next in their church planting strategies, in light of research on what's actually working best. Author Ed Stetzer heads up LifeWay Research Provides reliable, credible information about what church planting strategies work best A volume in the Leadership Network Series Offers a definitive guide for church planting and the burgeoning movement it is part of.

"Lord knows that we have more than enough books about ourselves and never enough books about the God that created us. It isn't until we see him that we can then make sense of ourselves. I believe Jen Oshman's book accomplishes that by widening our vision and helping us fall in love with seeing God again." —Jackie Hill Perry, poet; author; hip-hop artist Women today feel a constant pressure to improve themselves and just never feel like they're "enough." All too often, they live their daily lives disheartened, disillusioned, and disappointed. That's because joy doesn't come from a new self-improvement strategy; it comes from rooting their identity in who God says they are and what he has done on their behalf. This book calls women to look away from themselves in order to find the abundant life God offers them—contrasting the cultural emphasis on personal improvement and empowerment with what the Scriptures say about a life rooted, built

up, and established in the gospel.

Planting a church is one of the most exciting adventures you'll ever embark on. It's also one of the hardest. It requires initiative, leadership, strategy, systems, and a lot of prayer. In this second edition of *Planting Missional Churches*, not only will you find a completely redesigned book with new content in every single chapter, but you will also find several new chapters on topics such as church multiplication, residencies, multi-ethnic ministry, multisite, denominations and networks, and spiritual leadership. So if you're planting a church, be prepared. Use this book as a guide to build the needed ministry areas so that you can multiply over and over again. For additional resources visit www.newchurches.com/PMC.

Church planting has become a cottage industry. National conferences, hip planting organizations, and all-in-one resource kits celebrate the thrill of pioneering a church and inspire visions of glorious victories. Yet few who respond to the call are warned what they'll actually encounter: the relentless opposition they'll endure; the eventual scattering of their entire core group; the failure of their tried-and-true, field-tested system. Here's the dirty little secret of church planting: the roadside is strewn with casualties. Many have closed their churches. Some left ministry permanently. Others abandoned the faith altogether. Church planting is at once the greatest and most grueling ministry work on earth. This book is for those toiling in the trenches, those about to bail out, and those considering jumping in. It's for the church planters laboring and struggling, seeing little movement, and wondering what they're doing wrong or why God is failing them. It's also for mother churches, planting organizations, and denominations, as a challenge to rethink and re-calibrate the way they approach and measure planting endeavors. *The Honest Guide to Church Planting* is a fresh and candid conversation about the challenges and joys of planting new churches. Tom Bennardo speaks the truth so that those involved in church planting can embrace a more accurate and realistic picture of what planting a church is really like; one that not only enables them to survive, but to thrive in this difficult work.

David Garrison, PhD University of Chicago, defines Church Planting Movements as rapidly multiplying indigenous churches planting churches that sweep across a people group or population segment. Garrison's *Church Planting Movements: How God Is Redeeming a Lost World* signaled a breakthrough in missionary church planting. After the publication of Garrison's book in 2004 it became impossible to talk about missions without referencing Church Planting Movements. Church Planting Movements examines more than two-dozen movements of multiplying churches on five continents. After presenting these case studies, Garrison identifies ten universal elements present in each movement. He then broadens the circle of examination to identify a further ten common characteristics, factors identified in most, but not all, of the movements. He concludes his examination with a list of "Seven Deadly Sins," i.e. harmful practices that stifle or impede Church Planting Movements. Important for evangelical readers, the author returns to his findings to see how they stand up to the light of Scripture. What he discovers is that Church Planting Movements are much more consistent with the New Testament lay-led house-church movements that swept rapidly through the Mediterranean world in the face of hostile opposition than today's more sedentary professional institutionalized Christianity. Learn more about Church Planting Movements from the book's website: www.ChurchPlantingMovements.com.

One in every six churches in the United States is African-American. So, given the church's central role in the black community, why is the number of unchurched African-Americans increasing? How can you plant a church that proclaims with power and relevance the unchanging gospel to our changing African-American culture? Drawing from his wealth of experience, Hozell Francis gives you both the theory and practice for raising up a church in today's black community. You'll find out how to: - Shape a vision to guide your church - Form plans to realize your vision - Cultivate strong community ties - Develop an effective core of leaders - Impact families with the Gospel. - Transcend cultural dividing lines.
