Two 19th century stage illusionists, the aristocratic Rupert Angier and the working-class Alfred Borden, engage in a bitter and deadly feud; the effects are still being felt by their respective families a hundred years later. Working in the gaslight-and-velvet world of Victorian music halls, they prowl edgily in the background of each other's shadowy life, driven to the extremes by a deadly combination of obsessive secrecy and insatiable curiosity. At the heart of the row is an amazing illusion they both perform during their stage acts. The secret of the magic is simple, and the reader is in on it almost from the start, but to the antagonists the real mystery lies deeper. Both have something more to hide than the mere workings of a trick. Winner of the World Fantasy Award for best novel, 1996

Todd Fremde is an author, a writer of police procedurals and criminal mysteries. Invited to the remote island of Dearth, far across the Dream Archipelago, to talk at a conference, he finds himself caught up in a series of mysteries. How can Dearth claim to be completely crime-free, yet still have an armed police force? Why are they so keen for him to appear, but so dismissive when he arrives? Is his sense of time confused, or is something confusing happening to time itself? And how does this all connect with a murder committed on his home island, ten years before, and seemingly forgotten? Fremde's investigation and research will lead him to some dangerous conclusions...

A stunning literary SF novel from the multiple award winning Christopher Priest. A tale of murder, artistic rivalry and literary trickery; a Chinese puzzle of a novel where nothing is quite what it seems; a narrator whose agenda is artful and subtle; a narrative that pulls you in and plays an elegant game with you. The Dream Archipelago is a vast network of islands. The names of the islands are different depending on who you talk to, their very locations seem to twist and shift. Some islands have been sculpted into vast musical instruments, others are home to lethal creatures, others the playground for high society. Hot winds blow across the archipelago and a war fought between two distant continents is played out across its waters. THE ISLANDERS serves both as an untrustworthy but enticing guide to the islands, an intriguing, multi-layered tale of a murder and the suspect legacy of its appealing but definitely untrustworthy narrator.

Alesandro Sussken is a composer living in Glaund, a fascist state constantly at war with another equally faceless opponent. His brother is sent off to fight; his family is destroyed by grief. Occasionally Alesandro catches glimpses of islands in the far distance from the shore, and they feed into the music he composes. But all knowledge of the other islands is forbidden by the military junta, until he is unexpectedly sent on a cultural tour. And what he discovers on his journey will change his perceptions of his home, his music and the ways of the islands themselves. Bringing him answers where he could not have foreseen them. A rich and involving tale playing with the lot of the creative mind, the rigours of living under war and the nature of time itself, this is multi award-winning, master storyteller Christopher Priest at his absolute best.
