Challenger, DK's Tractor charts the story of the machines that reshaped agriculture in glorious visual detail. Meet the manufacturers whose amazing machinery transformed farming, including John Deere, Caterpillar, Massey Ferguson, and SDF; discover extraordinary vehicles, remarkable engines, and hi-tech modern cabs; and explore an incredible range of tractors from around the world.

The Class 50 locomotives were built by English Electric between 1967 and 1968. Fifty examples were built, and were initially used to haul express passenger trains on the, then non-electrified, section of the West Coast Main Line between Crewe and Scotland. They were originally hired from English Electric Leasing, and were eventually

Download File PDF Tym Tractor Manual

purchased outright by BR around 1973. Class 50s were nicknamed "Hoovers" by rail enthusiasts because of the distinctive sound made by the air-filters originally fitted (these proved unreliable, and were removed during mid-life refurbishment, but the "Hoover" nickname stuck). Once the electrification of the line from Crewe to Glasgow was completed, the locomotives were moved to services in the south west of England, primarily on the mainline from London to Exeter, and were eventually retired from service in 1994 after being progressively replaced by the InterCity 125 High-Speed Trains (HSTs).
